The proposed project involves the construction of an induction well at the Tracy Power Plant Site with a pump and pipeline connection from the proposed induction well to a tie-in with the existing pipeline that delivers water to the Power Plant from an existing point of diversion authorized under Permit No. 69488. This application is being filed to add another point of diversion to Permit No. 69488. NV Energy seeks to retain its ability to continue diverting from the existing points of diversion described in Permit No. 69488, and requests approval of this application to add another point of diversion to Permit No. 69488 for operational flexibility.

16. Miscellaneous remarks:

The applicant desires to have the ability to divert up to the full amount of water authorized under Permit No. 69488, from either the existing points of diversion described in Permit No. 69488 or the additional point of diversion described in this application, so long as the total amount of water authorized under Permit No. 69488, is not exceeded.
